GETTING STARTED

Staff User Guide

Attendance, requests and expenses - explained step by step.

For managers, office staff and field associates

Use SimKit to record your working day, request approval and track expenses. Sign in with your assigned account. Your menu shows the options available to your role.

Find the section you need

Task	Page
Record daily attendance	2
Apply for leave	3
Request work from home (WFH)	4
Request late / half-day arrival	5
Submit an expense	6
Track expense approval and payment	7
Review requests as a manager	8
Check deadlines or get help	9

REMEMBER THESE THREE RULES

Pending means waiting for approval.
Late arrival requests close at 8:00 AM IST.
Expense approval and payment are separate stages.

Screenshots show the actual app interface with sample data. Names, dates and amounts are examples. Layouts may vary on a phone.

Version 1.1 | 23 October 2026 | Internal staff use

01 / ATTENDANCE

Record your attendance

Follow the process for your role every working day.

Office staff and office-based managers

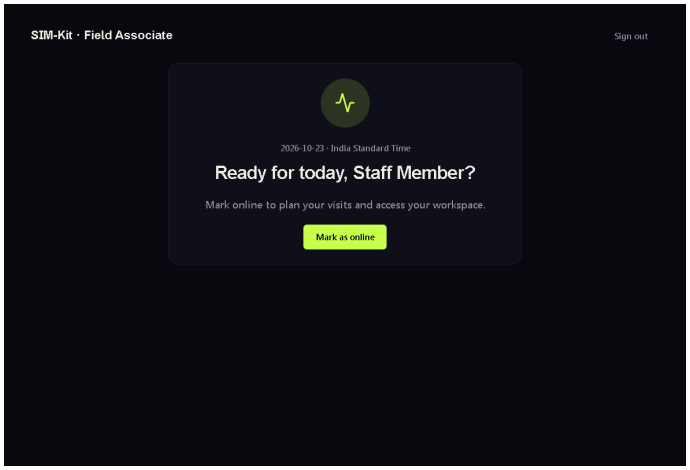

1 **Scan when you arrive**

Use the office face attendance device when you reach the office.

2 **Check the recorded entry**

Open My attendance, or your attendance screen. Check the date, scan time and status. Report missing or incorrect entries promptly.

Field associates

Field attendance: select Mark as online at the start of work.

1 **Start work**

Select Mark as online. Plan your visits or continue to your dashboard.

2 **Update work and finish**

Keep visit details and work status up to date. Complete the required work and approvals before marking a visit complete. Select Mark offline when you finish.

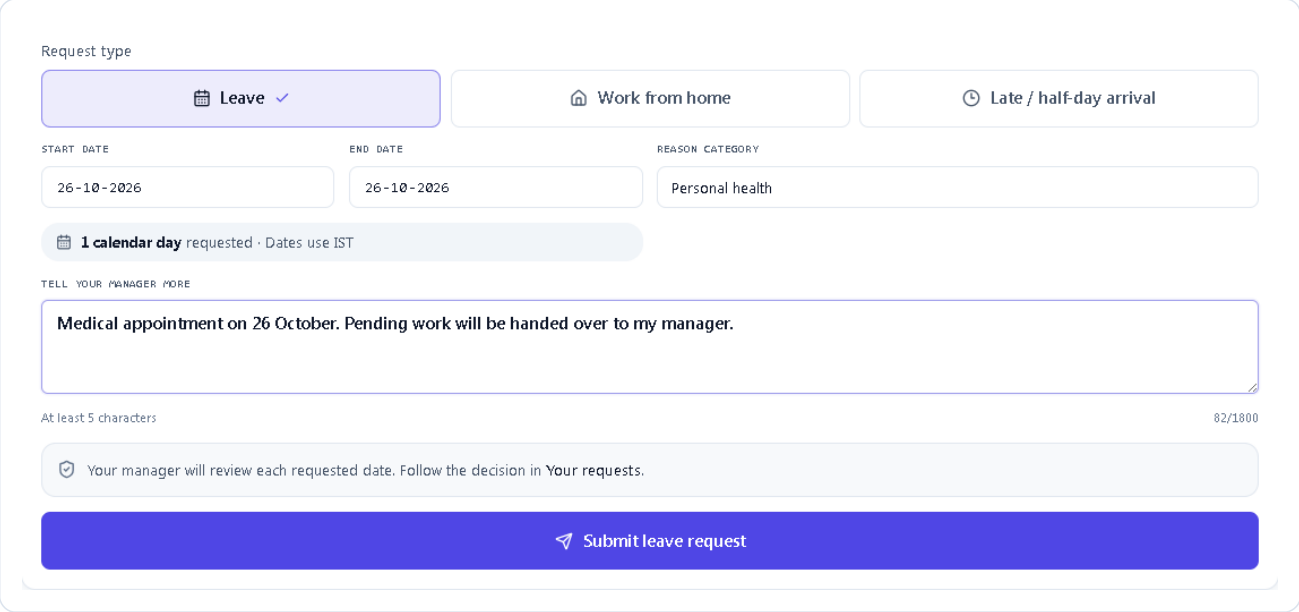

IF YOUR ATTENDANCE IS INCORRECT

Tell your manager/admin the date and your actual arrival or start time. Share the error details or a screenshot, if available.

02 / LEAVE

Apply for leave

Open Leave & WFH > New request > Leave.

Example: a one-day leave request with dates, category and reason.

1 Enter the leave dates

Choose the start and end dates. For one day, enter the same date in both fields.

2 Explain the reason and submit

Choose a reason category. Add a short, clear explanation, then select Submit leave request. Apply in advance whenever possible.

3 Check the decision for each date

Open Request history. Check which dates are approved. A request can be partly approved; follow the decision for each day.

DATE RULE

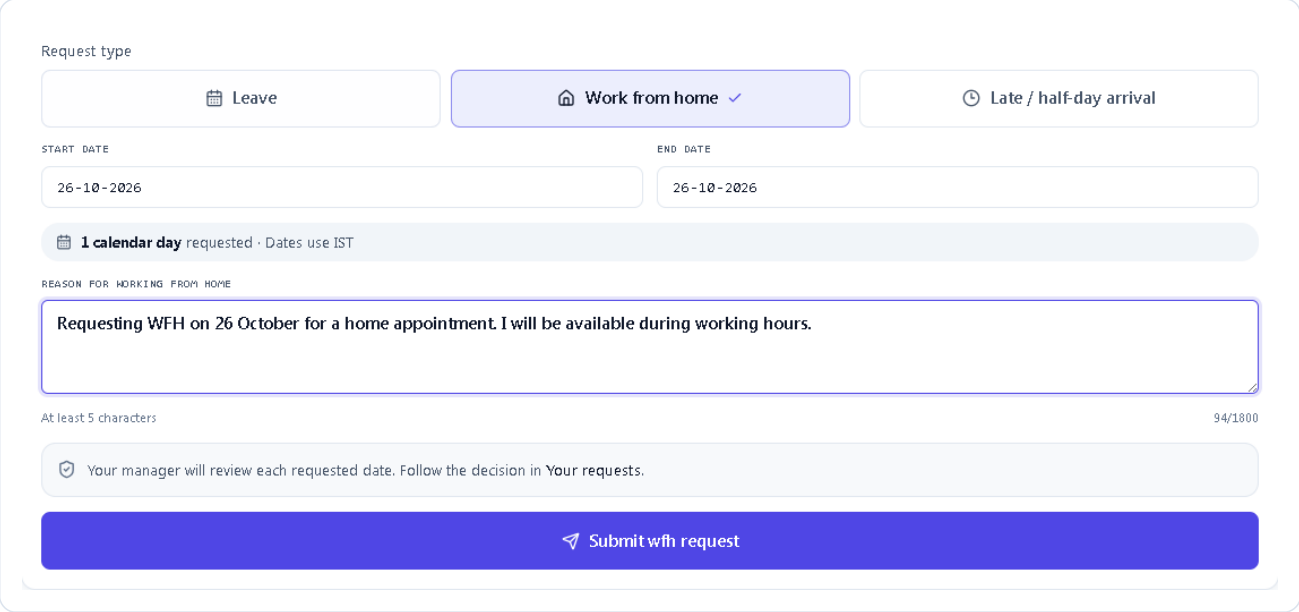

Choose today or a future start date. The app blocks past start dates. For an emergency, inform your manager immediately and submit as soon as possible.

Pending means waiting for a decision. If a date is rejected, contact your manager to discuss the next step.

03 / WORK FROM HOME

Request WFH

Open Leave & WFH > New request > Work from home.

Work from home is shown only when WFH is enabled for your account.

1 Check that the option is available

WFH must be enabled for your linked office or manager attendance account. If the option is missing, ask your manager/admin to check eligibility.

2 Enter dates and the reason

Choose today or future dates. Explain why you need WFH, then submit the request.

3 Check approval and work as agreed

Check each date in Request history. Once approved, stay available during agreed working hours and keep your manager updated.

> **APPROVAL IS REQUIRED**
>
> Do not treat a pending WFH request as approved. If it is rejected or your dates change, contact your manager and follow the recorded decision.

Example reason: "Requesting WFH on 26 October for a home appointment. I will be available during working hours."

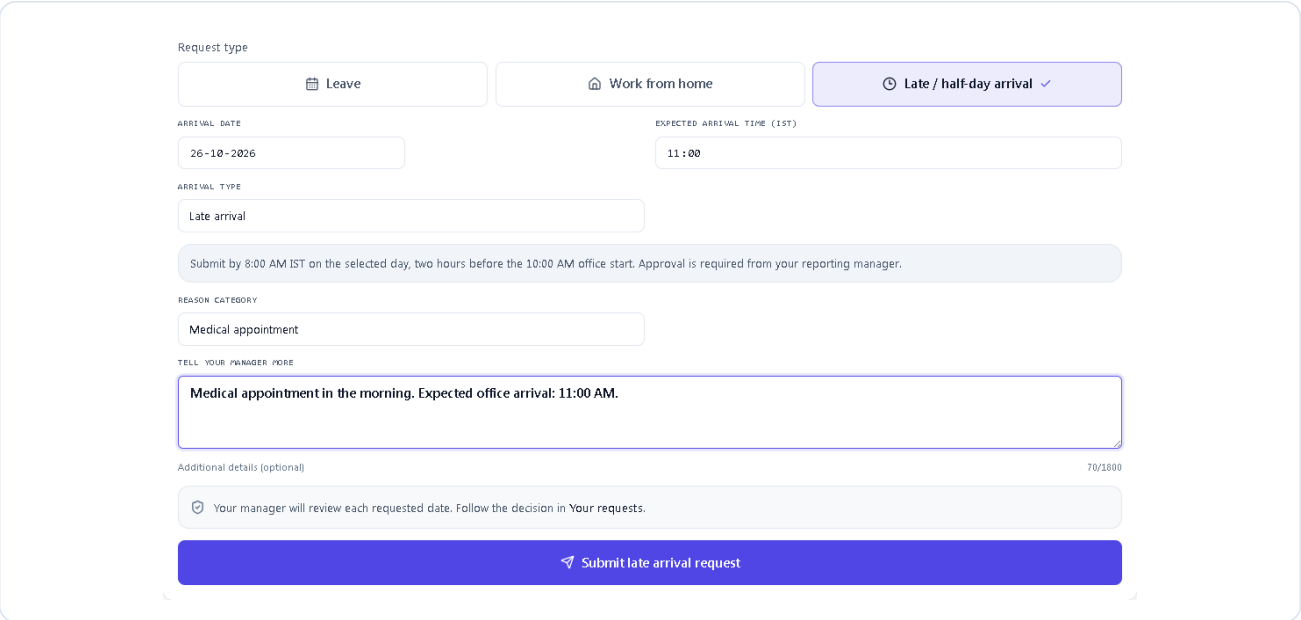

04 / LATE ARRIVAL

Late / half-day arrival

Open Leave & WFH > New request > Late / half-day arrival.

SUBMIT BY 8:00 AM IST

Apply by 8:00 AM on the requested day, two hours before the 10:00 AM office start. Applications for that date close after the deadline.

Example: expected arrival at 11:00 AM for a medical appointment.

1 Enter your expected arrival

Choose the date and an arrival time after 10:00 AM. Select Late arrival or Half-day arrival.

2 Choose the reason and submit

Select the reason category and add a clear explanation. If you select Other, you must enter an explanation.

3 Check approval and record attendance

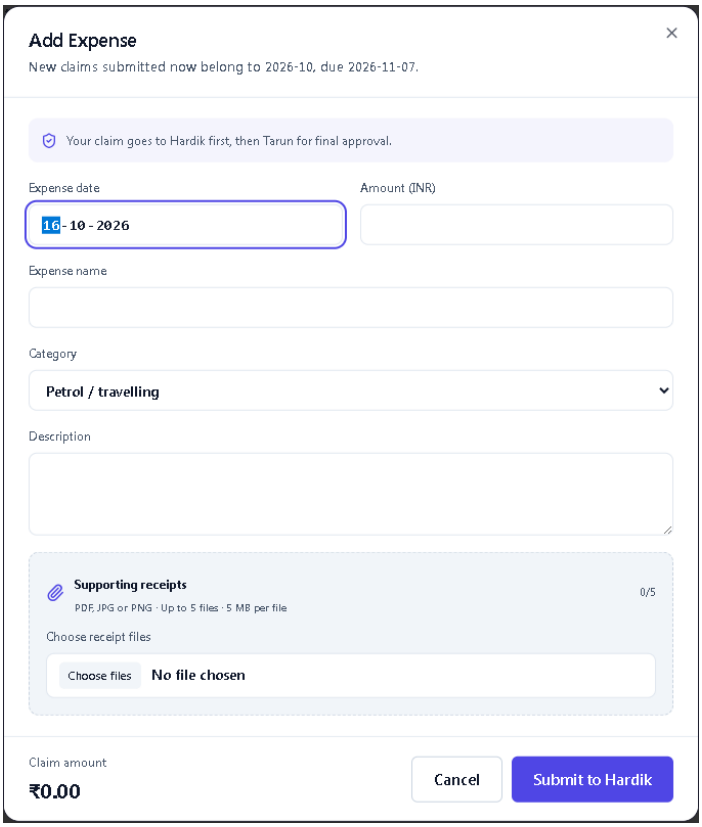

Check the decision in Request history. Record your actual attendance when you arrive.

Unexpected delay after 8:00 AM? Contact your manager immediately. The app will not accept a request for that date after the deadline.

05 / EXPENSES

Submit a work expense

Open Expense / My expenses > Add Expense.

The Add Expense form. Complete the details before Submit to Hardik.

1 Enter the expense details

Enter the actual date, amount in INR, expense name, category and work purpose. Mention the site or visit where relevant. Future dates are blocked.

2 Attach clear bills or receipts

Accepted: PDF, JPG or PNG. Maximum: 5 files, up to 5 MB each. Check that the amount and details are readable.

3 Review and submit once

Check the details, then select Submit to Hardik. Keep the original proof and follow the claim status. Avoid duplicate claims.

Missing receipt? Explain the situation and ask the finance reviewer what supporting proof is acceptable.

06 / EXPENSE TRACKING

From claim to payment

Check the status to understand what happens next.

Stage	What it means
Pending with Hardik	Your claim is waiting for the first review.
Verified by Hardik	The claim has been checked. It must still be forwarded for final approval.
Sent to Tarun	Your claim is waiting for final approval.
Approved	Final approval is recorded. Payment may still be pending.
Paid	Payment has been recorded. Check the payment details.

Which month does the claim belong to?

A new claim belongs to the month you submit it. For example, a September expense submitted in October belongs to October settlement. Submit expenses promptly.

If a claim is rejected

Read the rejection reason. Open the claim and select Edit & Reapply. Correct the details or attachments and submit again. The settlement month stays the same. Both reviews restart with Hardik.

> **EXAMPLE: OCTOBER SETTLEMENT**
>
> Reapply for a rejected claim by 5 November.
> Approved claims become payable from 7 November.
> Check Paid status to confirm payment is recorded.

The 5th is the deadline for reapplying for rejected claims. Actual payment depends on approval and processing.

07 / MANAGERS AND APPROVERS

Review and record decisions

Use the approval options assigned to your account.

Leave, WFH and arrival requests

1 **Open your assigned approval screen**

Check Team approvals / Review requests, or the approval screen available to you. Review pending requests regularly.

2 **Review the full request**

Check the employee, request type, dates and reason. For late arrival, also check the expected arrival time.

3 **Choose decisions and save**

Approve or reject every requested date, then save. Explain the decision to the employee if you reject a request or approve only some dates.

Expense review responsibilities

Approver	Action
Hardik	Check the purpose, amount and receipts. Verify eligible claims, then forward the selected verified claims to Tarun.
Tarun	Review forwarded claims. Record final approval or rejection.
Authorised payment recorder	Record payment only after it is made. Enter the payment reference.

BEFORE YOU FINISH

Check that the decision was saved. Verification alone does not forward an expense. Manager access does not automatically include every approval permission.

For your own attendance, requests and expenses, follow the same staff process wherever those options are available to your account.

08 / QUICK REFERENCE

Rules, deadlines and help

Keep this page handy for day-to-day use.

Item	Rule
Attendance	Record it daily. Report missing or incorrect entries promptly.
Leave / WFH dates	Use today or future dates. Past start dates are blocked.
Late / half-day arrival	Submit by 8:00 AM IST on the requested day. Approval is required.
Expense attachments	PDF, JPG or PNG; up to 5 files, maximum 5 MB each.
Rejected expense claim	Use Edit & Reapply by the 5th of the month following the claim settlement month.
Expense payment	Approved claims become payable from the following month's 7th. Check Paid status.

Who should you contact?

Login, account access or missing WFH option: your manager/admin.
Attendance or pending request: your reporting manager or assigned approver.
Rejected or unpaid expense: the finance reviewer. Share the claim details.

> **SEND USEFUL DETAILS WHEN ASKING FOR HELP**
>
> Share your name, the date, the request or claim details, and the error message or screenshot. Keep your password private.

WhatsApp or a call can communicate an urgent issue. Also keep the request and approval recorded in SimKit wherever the app allows it.

App rules checked against the project implementation on 23 October 2026. Salary, deductions and exceptional arrangements follow company policy. A request approval alone does not confirm a payroll adjustment.
