How to read this report

Metric	Definition
Coverage	Recorded entries on expected days / expected days. Leave and off days are excluded. Missing dates are listed separately; they are not inferred as absences.
Punctuality	On-time entries / entries with an assessed delay. N/A means no eligible entries.
Delay / Review	Average delay uses late entries only. Scan during leave and missing records require manager review. A scan is a first entry, not a measure of working hours.
